Year 9 Catch-Up Sessions will be left available for any other subjects to run exams should they wish to do so. If no specific exams are taking place, the sessions will be used to “mop-up” any pupils who have been absent from exams throughout the week.

The Year 10 Science Pilot Exams are “Mock” GCSE exam papers, set and marked by the exam board. This is a new scheme to give schools the opportunity to see real results of the new specification exam papers, but the results will not contribute to the actual GCSE award.

All Exams will take place in the Sports Hall under normal exam conditions, unless otherwise detailed above. For pupils with Special Requirements in Exams, appropriate accommodation will be arranged.
