

# Premises Management

Issued: November 2014

Review date: Autumn 2016

**Premises Management overview:** The DfE booklet 'Statutory policies for schools: Advice on the policies and documents that governing bodies and proprietors of schools are required to have by law' issued in September 2014 acknowledges that there are many aspects of school premises that require safe management and maintenance such as asbestos, fire safety and statutory testing. Cardinal Allen Catholic High School has comprehensive coverage of all statutory compliance requirements. As part of an annual return to the Local Authority, this statutory compliance is checked and signed off. The wide selection of compliance documents are too numerous and complicated to list or show publicly. These documents are always available for inspection if required.

Policies published separately on the school website and linked to statutory compliance include Health & Safety, Critical Incident Response Plan and the School Accessibility Plan.

All copies of documents relating to Premises Management are held centrally with the School Business Manager.
